Please take note of the fact that all tuningfiles are delivered in SLAVE format (Dimsport, Alientech, FGTech, Bytehooter). If you need MASTER tuningfiles you will have to multiply the prices in our price list with the factor 1.7. Please understand that we can't give away our know-how for dumping prices. We also keep the right not to deliver MASTER files to every customer. The VPT Vertriebs GmbH doesn't take any responsibility for damages caused by delivered tuningfiles. The delivery of tuningfiles just takes place according to a signed delivery contract where prices and conditions are regulated. The payment for SLAVE customers has to be done until the end of each month. MASTER files are just delivered prepaid (Paypal, Western Union or bank transfer). All prices are without tax. Please also take note of the fact, that we need a copy of the company owner's passport or drivers license and the valid UID Number of an European company for writing the invoice without including tax.
